BUCKINGHAM

The Buckingham series has the clean lines and elegant form to complement any upscale decor. All of the frame components, column vases, balls, arms, and bobeches are lead crystal. The hand cut crystal column parts are perfectly complemented by the square and rectangle crystals, breaking light into the full spectrum of colors. Imagine the elegance of these fixtures positioned over place settings of fine Baccarat or Waterford crystal stemware. Fixtures range in size from a modest 6 light dining chandelier to this grand entryway fixture. European made frames.

Strass® Golden Teak crystal trim has been added to the series of heavy chased Spanish brass castings with 24% lead crystal columns and bobèches offered in four finishes. Crystalique Golden Teak non-lead crystal, although not as brilliant as SGT, provides a more economical option. See catalog 5009 pages 62-70 to see the complete collection in all the finishes and clear crystal trim options.

available in

Crystalique-Plus

or Strass.

Crystal Rain has a shimmering array of crystal that can be specified at almost any length from 1 foot to 12 feet long in three diameters of 15, 24, or 31 inches. Fill a tall foyer or stairwell with glistening crystal or place in a corner with the crystal draping from ceiling to floor or have the crystal spill onto a tabletop. Adding a mirror underneath or on the walls behind these fixtures will create a spectacular multiplying effect.

To create the effect of a waterfall slashing into a pool of water specify the distance from the ceiling to the floor (or table top) and the number of extra crystal you would like to splatter about under the chandelier to create the puddling effect.

Call for a quote if you would like to add a random splash of color. See the BEDAZZLE series for a long list of color crystal options including Black, Sapphire, Red, Pink, Topaz, Golden Teak, Violet, Green, and others.

To specify the length indicate the length in inches after the item number and a dash. For example:

16120-12 for the 16020 frame with standard crystal trim (12" diameter with 5 lights) and an overall length of 12" from ceiling to the end of the crystal.

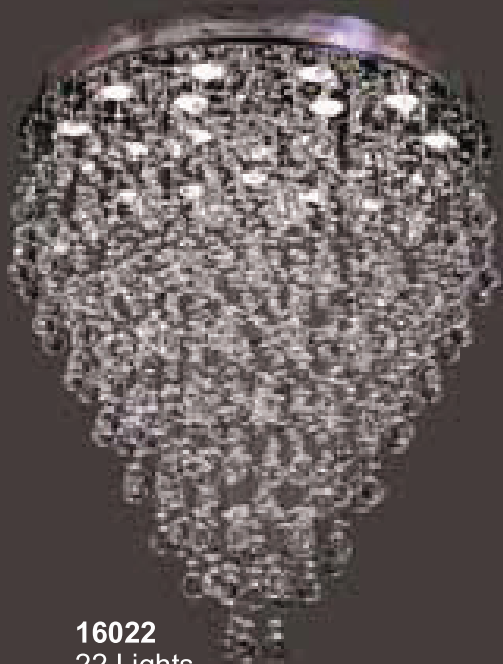

16121-48 for the 16021 frame with standard trim (24" diameter with 10 lights) and an overall length of 48" from ceiling to the end of the crystal.

16142-96 for the 16022 frame with heaviest crystal trim (31" diameter with 22 lights) and an overall length of 96" from ceiling to the end of the crystal.

Note that prices are listed by the foot, so in between lengths will be rounded up to the nearest foot.

Also, note that variations in materials and assembly will cause the strands to be slightly different lengths, especially on the longer strands.

CELESTE

The Celeste Series could truly be considered artwork first, lighting second. The solid brass, textured banding is bent and shaped to form fluid, swirling lines that embrace the hand-made Italian glass disks which also have a texture that evoke the feeling of ice that has partially thawed and re-froze to create an undulating surface that makes the light dance as it passes through. Frames are European-made.

INSPIRATION

The beauty of a flower reaching upward to the heavens was the inspiration behind this series with its mouth blown gracefully upswept crystal arms.

Let the simple elegance of these fixtures or the palette of colorful crystals available be your inspiration.

Frames are European made.

16061 SN CP

16061 SN PNK

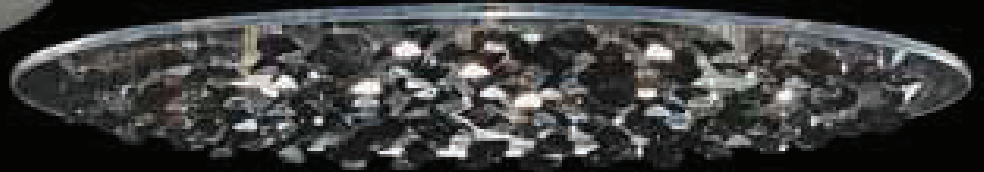

16061 SN BLK

16061 SN SAP

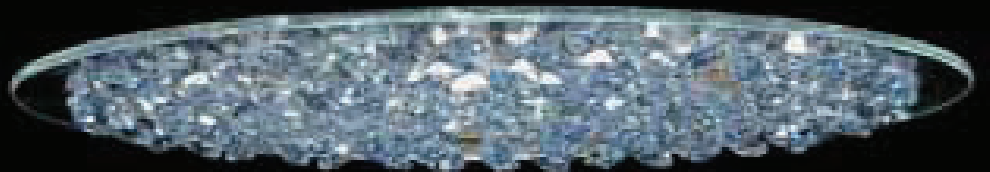

16061 SN AM
1 Lights (120V MR16)
5"W x 13-50+"H

All glass shades can be mounted with crystal facing up or down and are dishwasher safe. Additional suspension wire can be specified.

CRYSTAL LAKE

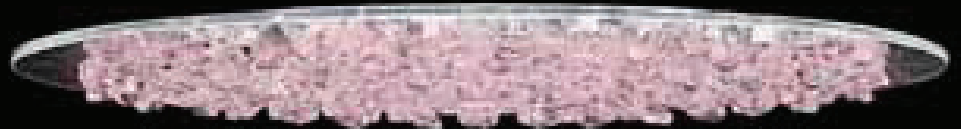

16063 SN BLK

16063 SN SAP

16063 SN CP

16063 SN PNK

16063 SN AM

16063 SN PNK
1 Light (120V MR16)
12"W x 18-43"+H

Like the dazzling reflections of light off ripples on a lake at sunset, the Crystal Lake series glows under the pure white light from the MR16 bulbs. The high quality cast and machined frames with a clean brushed nickel finish creates a sleek design that complements the glistening machine polished crystal.

Finish Code:
SN Satin Nickel

As with virtually all Classic Lighting crystal fixtures, customized trim options are available, call for quote.

INFINITY

16082 BCH CP
2 Lights (120V G9)
12"W x 6"H x 4"D

16085 BCH AM
15 Lights (12V JC G4)
39"L x 6"W x 10"H

Finish:
BCH Black Chrome

Crystal codes:
AM Amber and Clear
CP Crystalique-Plus

The unique look of the Infinity series cannot be adequately captured on film. The black nickel frames are encased in two semi-transparent smoked mirrors creating a recursive effect. The repetitive reflection of lights and crystal seems to go on forever.

All clear Crystalique-Plus crystal or a combination of clear and amber crystal may be specified. Call for a quote on any crystal option desired including Strass, Swarovski Spectra or other colors.

Adjustable suspension wires allow for flexible installation options including slanted ceilings.

NITRO

16070 CH
10 Lights (12V JC G4)
16"W x 16-50+"H

Make a bold statement with this explosion of metal and lead crystal.

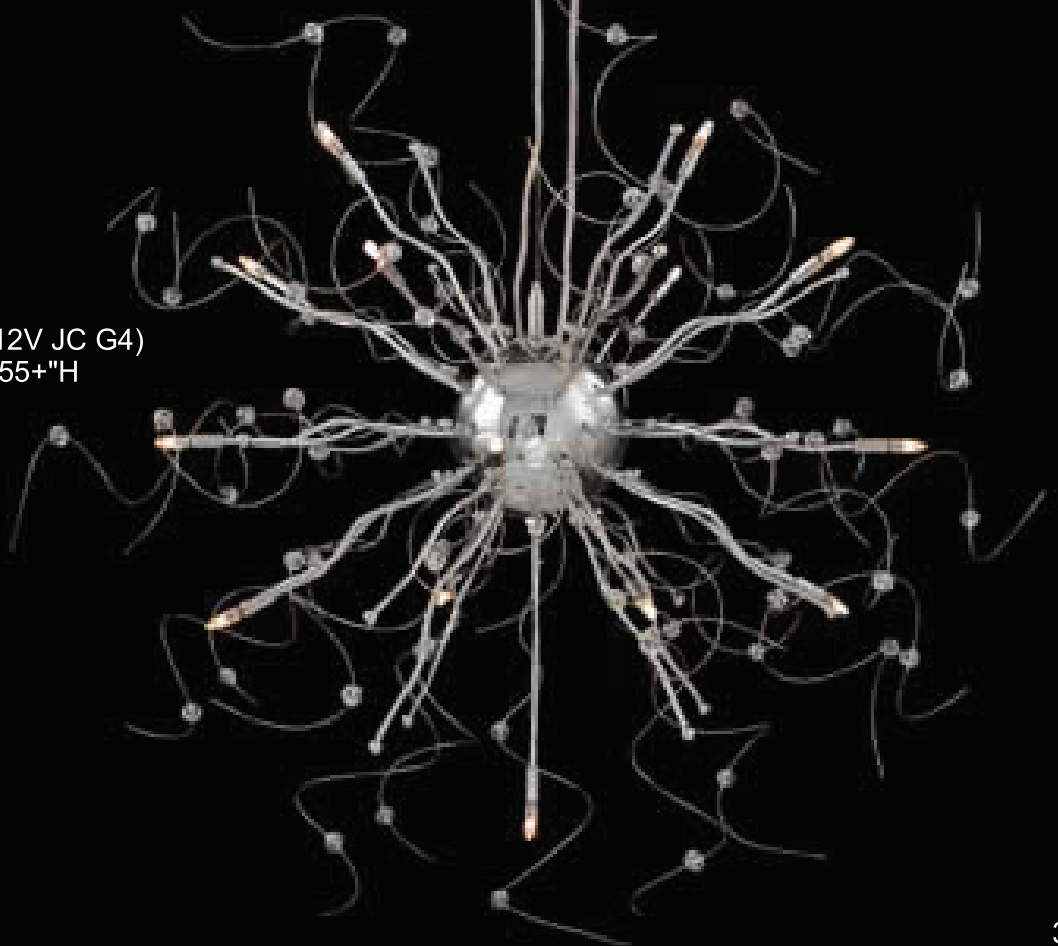

These fixtures are small enough to be used over islands and bars, or shorten the wire for hallways.

The design is also strong enough to use in a modern dining or living area. Place 1 or 2 over a dining table or hang in a corner or over an end table as a functional piece of art.

On request, the suspension wires can be lengthened to meet any height requirement.

Finish Code: CH Chrome

Sharon Series

Simple, shapely lines with a glistening beaded centerpiece and a light sprinkling of crystal make the Sharon Series a beautifully transitional design.

More contemporary in chrome, more traditional in Antique Brass, or in between when finished in Black Nickel.

SHARON

The Sharon series is extremely budget friendly without sacrificing quality or styling.

30"W x 52"H

This is an extension of our Solitaire series from catalog 5005 pages 129-130. These frames are highly polished then meticulously chrome plated to a mirror-like finish.

Generously decorated with lead crystal faceted spheres, the light weave of the design hides the light clusters and the bulbs giving it a very clean uncluttered look.

Options abound with this transitional family of crystal chandeliers! Mix chrome frames with clear crystal for a more contemporary look or English Bronze with Gold highlights and amber crystal for a more traditional look. Mini pendants in antique white with rose crystal are perfect for the little Princess's room. Mini pendants in English Bronze with amber crystal sets the mood over the bar. Dark corners or staircase landings come alive with a 3 light cluster. Use your imagination.

with Gold Patina
Crystal: PTS Prisms of Tortoise Shell

CATALONIA with Crystal

The Catalonia series boasts a broad family of fixtures ranging from a 1 light wall bracket to the large 38" wide by 52" high foyer chandelier.

Just a touch of antique gold highlights sets off the detail in the beautiful cast resin accents.

Soft, tea stained glass and the rich bronze tones of the multi-layered hand painted Tortoise Shell finish fit today's decorating trends without being pedestrian.

The Catalonia series is available with Tortoise Shell colored crystal as well as the basic non-crystal version.

15"W x 12"H x 6"D

WARSAW

These European-made cast solid brass frames are oxidized and hand finished to achieve this rich Roman Bronze finish. Only the best quality 24% lead crystal bowls, made in Poland, are used to set the Warsaw series apart. When only the BEST will do, the Warsaw series fits the bill.

These versions have longer bottom bowls for higher ceilings. See the following pages for flatter bottom bowls for lower ceilings.

55439 RB
16 Lights
32"W x 46"H
